

can't download AGWA2 installers

Posted by meh@uwyo.edu - 2007/12/13 22:35

When I try to download the 9.2 AGWA2 installers, it says the file is currently being updated and is not available. I've tried two days now with the same message. When will it be available?

The files were inadvertently checked out sometime last week. Updated AGWA2 installers will be available again December 18, 2007.

Hi, sorry for the delay. The installers should be available now.
